

Scala

6th edition

Sponsorship 2019

ScalaIO: the French Scala conference

ScalaIO is the most important event of the year for both users and developers of Scala, as well as functional programming languages at large in **France**.

The last edition enjoyed phenomenal success with:

- **Four tracks** during two full days of conferences
- A dedicated day of **workshop**
- More than **400 attendees** from all over Europe
- **50 well-known speakers** from international and national communities
- **Excellent feedback** from our sponsors and participants
- **Speaker's dinner**
- **63 high definition free videos** with ~10k viewers in a month

ScalaIO: the French Scala conference

ScalaIO 2019 will be held at the **end of October** in **Lyon**. We expect about 350 people coming from all over Europe to enjoy talks from more than 50 carefully selected speakers, on 4 tracks.

At least 30% of the talks will be given in English, and **we'll ensure that an entire track is dedicated to English-speakers**. This choice will allow us to invite the most prestigious members of the Scala community.

Venue

Venue

ScalaIO will take place in the city of **Lyon, France**.

The venue is connected with public transportation, close to a train station and easily accessible from an international airport.

It is well suited for up to **500** participants and has everything necessary to organize a **world-class conference**.

Low-priced tickets generate interest not only amongst enthusiasts, but also with those who are not part of the usual conference-going crowd. Our sponsors get **broader opportunities**, allowing them to reach **new audience**.

CPE Lyon

Premises include a **500p amphitheater** for keynotes and the first track. The **170p amphitheater** and a **80p room** will host the 2nd and 3rd track respectively. The venue also includes **two 40p rooms** for workshops which have been reserved by the conference. A 3rd **40p room** can be reserved for a sponsored workshop, hackathon, and so on.

Sponsor's stands will be distributed in the halls.

Rooms

Focus and Themes

Focus

While **ScalaIO** is a conference focused on **Scala** and **functional programming**. We believe it is important to remain **open to wider ecosystems**. We want **ScalaIO** to be a place to learn and exchange about Scala, but also about other language communities. This year, like the previous ones, we are eager to open the scope of the conference to other communities, who want to join us to share ideas and bring inspiration.

The conference intends to widely cover the Scala ecosystem from **experimentation to production**, from **beginners to experts**. We want the conference to be open for newcomers, as we know many developers have an interest in functional programming and in Scala, but lack the time to polish their skills and introduce Scala in their daily work.

CFP

The **Call For Proposal** selection process is handled by a dedicated committee with expertise on the subjects described below.

One of the focus of this **ScalaIO** will be to offer **talks**, **universities**, and **workshops** demonstrating techniques, features, tools, and setups to use Scala day to day in your projects.

We will cover the latest Scala developments in **data engineering** with massive infrastructures, distributed data processing and machine learning. The mixed programming paradigm of Scala language and tooling with **typelevel** and **functional programming** techniques will also be presented.

Sponsoring plans

Price : **8000 €**

1 position available

Platine **plan**

- ❑ 1 sponsor 45mn conference slot
- ❑ 5 mn keynote
- ❑ 12 conference passes
- ❑ -25% discount on regular tickets
- ❑ Large logo
 - ❑ on our website (with link)
 - ❑ on the presentation template
 - ❑ on the conference videos
- ❑ Logo on the conference rollups
- ❑ Additional rollup in keynote room
- ❑ Messages in the **ScalaIO** newsletter

Stands are available on demand

If you feel that we have failed to mention something, if you have an idea which is not above or want to discuss one of the plans in more detail, please contact us at sponsor@scala.io.

Gold plan

Price : **4000 €**

- ❑ 5 conference passes
- ❑ -25% discount on regular tickets
- ❑ Medium logo & link on our website
- ❑ Medium logo on the presentation template
- ❑ Medium logo on the conference video
- ❑ Logo on the conference rollup
- ❑ Additional rollup in keynote room
- ❑ Messages in the **ScalaIO** newsletter

Stands are available on demand

If you feel that we have failed to mention something, if you have an idea which is not above or want to discuss one of the plans in more detail, please contact us at sponsor@scala.io.

Silver plan

Price : 2000 €

- ❑ 3 conference passes
- ❑ -25% discount on regular tickets
- ❑ Small logo & link on our website
- ❑ Small logo on the conference video
- ❑ Logo on the conference rollups
- ❑ Messages in the **ScalaIO** newsletter

Stands are available on demand

If you feel that we have failed to mention something, if you have an idea which is not above or want to discuss one of the plans in more detail, please contact us at sponsor@scala.io.

Price : **800 € / day**

2 positions available

Eco cup plan

- ❑ Co-Branded eco-cups distributed to all participants during coffee breaks
- ❑ Roll ups and flyers close to the coffee break point to give **visibility**

Budget

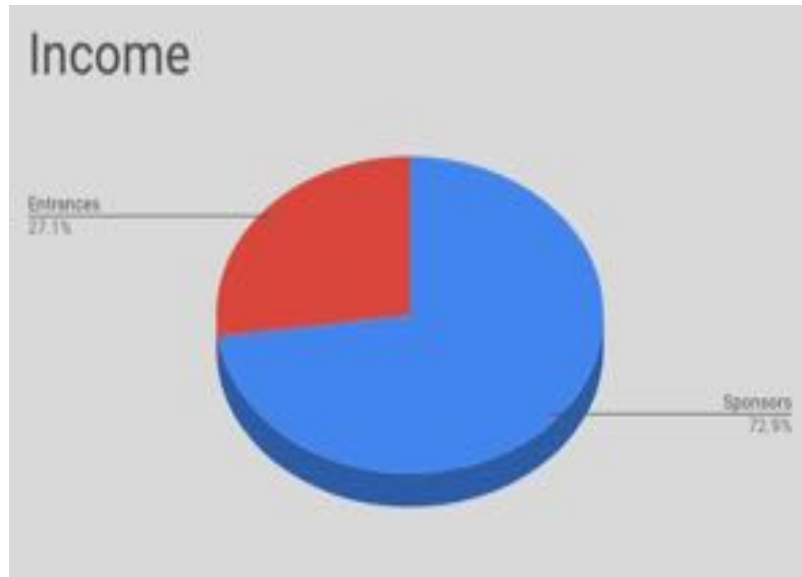

Open budget

As a community organized conference, **ScalaIO's** budget is as open as possible. Our goal is to provide the best experience within a balanced budget. **Our profits are dedicated at growing the conference and the Scala community.**

This event is run 100% by people who are generous to **volunteer their time.**

To ensure that our budget is balanced, we are working in stages.

First we secure the core components of the event (the venue and related fees, catering, etc.), then we use available funds to perfect our conference (covering speaker's travel expenses, community party, etc.).

Thank **you!**
